**BSc / MEng Bioengineering with a Year in Industry Grade Guidelines – characteristics of performance for each grade**

| Criteria | E 30-39% | Grade D: 40-49% | Grade C: 50-59% | Grade B: 6—69% | Grade A: 70-84% | Grade A+: 85-100% |
|---|---|---|---|---|---|---|
| ***Apply and develop engineering knowledge*** | | | | | | |
| *Identify, use and synthesise skills and knowledge from across the undergraduate course and apply this to work place problems.* | Presents little evidence of ability to identify and apply academic skills and knowledge to the workplace. | Presents limited evidence of an ability to identify skills and knowledge gained from elements of undergraduate study to workplace problems but other than describes does not some reflect on that evidence. | Presents some evidence of and an ability to identify skills and knowledge gained from aspects of undergraduate education to the work place and attempts limited reflection on that evidence. | Presents clear evidence of and ability to identify skills and knowledge gained from across undergraduate education and uses reflection to discuss the application of those skills in the workplace. | Presents strong and convincing evidence of the ability to synthesis skills and knowledge from across the undergraduate course in workplace projects and problems and to use reflection effectively as tools to discuss that experience. | Presents an outstanding ability to utilise and synthesis skills and knowledge from across the undergraduate course and from wider reading and use apply that knowledge to workplace problems and critically reflect on the value of that experience. |
| *Develop new skills and knowledge and applies these to the workplace.* | Presents little evidence of development of new skills and knowledge during the placement. | Presents limited evidence of development new skills and knowledge describes skills/ knowledge but offers no reflection. | Presents some evidence of the development of new skills and knowledge explains how these are used in the workplace and attempts limited reflection on that evidence. | Presents clear evidence of the development of new skills and knowledge required to deliver workplace tasks and reflects on and discusses new | Presents strong evidence of the ability to independently develop new skills and knowledge and introduce those skills and knowledge to a range of workplace | Presents an outstanding ability to independently learn new skills and knowledge, drawing on recent research and innovation. Uses refection to evaluate that |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | | | knowledge and skills. | projects. Uses reflection to evaluate that learning experience. | learning experience and identify action points. |
| *Identify process of project scoping, management and delivery.* | Presents little evidence of understanding or using project planning or delivery or projects. | Presents limited evidence of understanding or using the processes of project scoping, management and delivery. Does not reflect on the value of this experience. | Presents some evidence of understanding and using processes of project management as well as delivery of a project and attempts some reflection on learning from this experience. | Presents clear evidence of understanding and involvement with the processes of scoping, managing and delivering projects and reflecting on learning from this experience. | Presents strong evidence of understanding and involvement with the process of project management, and assessing project development. Uses reflection as a learning tool throughout these processes. | Presents an outstanding ability to understand and document the processes of initiating and delivering a project and to use reflection to improve project management skills and identify a personal action plan. |
| *Apply problem solving skills and use innovative /creative / lateral / thinking in solutions.* | Presents little evidence of problem solving or innovating. | Presents limited evidence of problem solving in the workplace or innovating in the workplace. Does not reflect on the value of this experience. | Presents some evidence of problem solving and innovation in the workplace and attempts some reflection on this experience. | Presents clear evidence of innovative problem solving in the workplace and the identification of creative/lateral thinking in doing so. Reflects on learning from this experience. | Presents clear and convincing evidence of solving workplace problems, using innovative and creative approaches. Uses reflection to assess the strengths and weaknesses of approaches to problems solving. | Presents evidence of an outstanding ability solve workplace problems, making an innovative and original contribution. Reflects clearly the strengths and weaknesses of approaches to problems solving and identifying a |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | | | | | personal action plan. |
| **Criteria** | **E 30-39%** | **Grade D: 40-49%** | **Grade C: 50-59%** | **Grade B: 6—69%** | **Grade A: 70-84%** | **Grade A+: 85-100%** |
| ***Personal Responsibility and Effectiveness*** | | | | | | |
| *Identify, agree, set, reflect on and assess the delivery of workplace objectives.* | Offers no evidence of identifying or agreeing workplace objectives | Offers some evidence of identifying and agreeing the delivery of workplace objectives without reflecting on these objectives | Describes a range of workplace objectives, comments on their delivery and offers limited reflection on this experience. | Clearly describes a process of identifying, agreeing and setting work lace objectives and reflects on these objectives and their delivery. | Presents clear evidence of personal involvement in the identification, setting and review of workplace objectives. Uses reflection to comment on objectives and personal involvement in negotiating those objectives | Presents evidence of clear involvement in identifying and agreeing objectives, including the introduction of personal objectives, initiating assessment and review of objectives and reflecting on processes and outcomes. |
| *Utilise feedback from a wide range of sources as a tool to increase professional competence.* | Offers no evidence of identifying or utilising feedback | Describes some feedback received in the workplace but does not reflect on this feedback. | Describes feedback from a range of sources in the workplace and offers limited reflection on this feedback. | Clearly describes feedback from a range of sources inside and outside of the workplace and reflects of this feedback to identifies themes. | Presents clear evidence of actively seeking feedback from a range of sources, describing action taken and reflecting on | Presents clear evidence of seeking feedback from a range of sources, reflecting on feedback and changing professional practice using |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | | | | personal effectiveness. | personal action plan. Offers effective feedback to others. |
| *Identify workplace team dynamics and reflect on personal contribution to teams.* | Offers no comment on workplace team dynamics or personal roles in teams. | Offers some description of the dynamics of workplace teams but does not reflect on personal contribution. | Offers examples of the dynamics workplace teams and reflects on personal behaviour within teams. | Observes and comments on the dynamics within workplace teams, reflects on personal style within teams and identifies a personal action plan for increasing effectiveness. | Offers clear observations and comments on team dynamics within a range of contexts, reflects on personal style within teams, refers to theories of team dynamics, independently researched and identifies a personal action plan for increasing effectiveness. | Offers a clear and carefully structured comment on team dynamics in a range of contexts, reflects on own style within teams and integrates theories of team dynamics into commentary. Uses feedback on personal style to contribute to personal action plan for increasing effectiveness. |
| *Demonstrate an understanding of the business context in which projects are delivered.* | Offers minimal description of the company. | Offers some description of the company drawn from the company website and other online sources but does not reflect on personal contribution to the company's business activities | Describes the company and the market in which it works. Identifies the role of students department or project within the company. Reflects on the department or projects | Describes the company and its markets and identified key financial and costing details of the projects on which the student works. Reflects and assesses personal | Offers a clear description of the company, products and markets, is able to understand the costings and finances of projects on which he /she has worked and projects potential to contribute to | Offers a clear description of the company, products and markets, growth potentioal. Shows appreciation of project costings and finances and reflect the value added to the |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | | contribution to business success. | level of business skill and knowledge | company profitability. Reflects on persona level of business skill and knowledge and identifies a personal action plan to develop skills and knowledge. | business by his/her projects and work. Identifies personal action plan to develop business skills and knowledge and offers evidence of progressing that plan. |
| | | | | | | |
| **Criteria** | **E 30-39%** | **Grade D: 40-49%** | **Grade C: 50-59%** | **Grade B: 6—69%** | **Grade A: 70-84%** | **Grade A+: 85-100%** |
| ***Use communication skills effectively.*** | | | | | | |
| *Collate, organise, analyse, document, comment on and explain information.* | Offers little evidence of ability to collate and organise information. | Offers some examples from the work place requiring the ability to collate, organise and document information with some commentary. No reflection on the effectiveness skills in this area. | Offers examples drawn from the workplace demonstrating the ability to collate, organise documents, comment on and explain information. Some reflection on skills in organising and using data and information. | Clearly describes examples drawn from the workplace demonstrating the ability to organise, explain and utilise information. Reflection on student's skills information and data management | Offers clear examples of ability to collate, document and organise information and to extract, explain and comment on information. Reflects on strengths and weakness in this area and identifies a personal action plan. | Offers clear and contrasting examples of the ability to collate, documents and organise information and to extract, explain and comment on information. Reflects on strengths and weaknesses and identifies a personal action plan with evidence |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | | | | | of progressing that plan. |
| *Communicate information (data, analysis, findings, work in progress, technical or business problems etc.) using media most appropriate to a range of audiences (written reports, verbal reports, presentations, graphical representations, models).* | Little evidence of student's skills in communicating information. | Limited evidence of use of communication tools for differing audiences. No reflection on the effectiveness of those tools. | Evidence of use of a range of communication tools and explanation of the choice of those tools for a given audience. Some reflection on strengths and weaknesses. | Clearly describes the use of a range of communication tools with and explanation of the choice of those tools. Student reflects on their strengths and weaknesses and identifies areas for improvement. | Clear case studies of the students' use of communication tools and explanation of choice of tools for given audiences. Student identifies their own strengths and weaknesses, utilises feedback to develop a personal action plan, including training requirements. | Clear case studies of the students' use of communication tools and explanation of choice of tools for given audiences. Student identifies their own strengths and weaknesses, utilises feedback to develop a personal action plan, including training requirements. Student offers examples of changes to communication skills resulting from reflection, feedback and skills development. |
| *Identify workplace problems and issues and make effective use of feedback.* | Few examples of workplace problems and issues. | Limited examples of workplace problems and issues with no evidence of seeking | Description of workplace problems and issues facing the student and of | Clear examples of problems and issues faced by the student in the workplace and use | Clear case studies of problems and issues faced in the workplace and reflection on | Clear case studies of problems and issues faced in the workplace and reflection on |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | or using feedback and no use of reflection. | feedback received from line manager. Some reflection on the student's response to problems, issues and feedback. | of feedback from colleagues in response to these problems and issues. Student reflects on their responses and behaviour resulting from problems and issues. | responses. Student seeks advice and feedback and uses reflection plan better deal with workplace challenges. | responses. Student seeks advice and feedback and uses reflection plan better deal with workplace challenges. Student offers examples of changes in response to workplace challenges as a result of reflection. |
| *Able to use appropriate communication skills to effect change.* | Little evidence of influencing change. | Offers examples of contribution to changing the development of a project. No evidence of reflecting on this experience. | Offers examples of persuading workplace colleagues to change aspects of a project. Reflects on ability to influence action. | Clear examples of student persuading colleagues to change aspects of a project or adapt new technologies or methods. Student reflects on their ability to influence other people's actions and the difficulties and challenges of doing so. | Clear examples of student's contribution to changing opinions or methods or technologies in the workplace. Student uses reflection as a tool to identify their personal strengths and weaknesses and identifies and action plan to increase effectiveness. | Clear examples of student's contribution to changing opinions or methods or technologies in the workplace. Student uses reflection as a tool to identify their personal strengths and weaknesses and identifies and action plan to increase effectiveness. Student offers |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | | | | | examples of changes to their ability to influence change resulting from reflection. |
| | | | | | | |
| **Criteria** | **E 30-39%** | **Grade D: 40-49%** | **Grade C: 50-59%** | **Grade B: 6—69%** | **Grade A: 70-84%** | **Grade A+: 85-100%** |
| ***Able to identify and work with codes of conduct, regulatory environment, ethical and environmental considerations*** | | | | | | |
| *Identify the regulatory / legal / health and safety frameworks within which work is conducted.* | Shows little or no evidence of understanding the regulatory / legal / health and safety frameworks within which the placement was conducted. | Describes aspects of the regulatory and legal and health and safety frameworks within which the company / organisation operates. Does not reflect on the impact of these frame | Describes legal, regulatory and health and safety frameworks within which work takes place and offers examples of using these frameworks in the placement. Reflects on the level of knowledge developed on these themes. | Clearly describes examples of how the legal, regulatory, health and safety frameworks impact on the students work placement. Student reflects on learning about and complying with these frameworks. | Offers clear case studies on demonstrating the impact of legal, regulatory and health and safety frameworks on projects and workplace tasks. Clear reflection on use of these frameworks and identification of training needs. | Offers clear case studies on demonstrating the impact of legal, regulatory and health and safety frameworks on projects and workplace tasks. Clear reflection developing knowledge of an skills in using these frameworks and offers examples of changes to work practices resulting |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | | | | | from increased knowledge. |
| *Identify ethical problems in the workplace and reflect on those problems and reason the most appropriate individual course of action.* | Shows little or no ability to identify ethical issues arising in the work place | Shows limited understanding of ethical issues in the workplace but unable to describe a response to these issues. | Describes examples of ethical issues in the workplace and describes opinions about these issues. | Offers clear examples of ethical issues in the workplace and reflects on personal behaviour and action resulting from these issues. | Offers clear case studies of ethical issues in the work place, analyses those issues and offers clear reflection on personal behaviour and action and the results of that action. | Offers clear case studies of ethical issues in the work place, analyses those issues and offers clear reflection on personal behaviour and action and the results of that action. Offers evidence of use of ethical guidelines in dealing with such issues. |
| *Assess the environmental impact of projects and work* | Offers few or no examples where the environmental impact of work is considered. | Offers some understanding of the environmental concerns of projects or practices of the company or organisation. Does relate those concerns to personal responsibility at work. | Offers examples of environmental concerns in projects or practices of the company and organisation. Reflects on responsibility for incorporating good practice in work projects. | Offers clear examples of environmental concerns in projects and practices of the company or organisation with analysis and commentary. Offers examples of incorporation of good practice in own work projects. | Offers clear case studies of environmental concerns in projects and practices in the work with which the student is involved with analysis and commentary. Offers examples drawn from personal work projects of | Offers clear case studies of environmental concerns in projects and practices in the work with which the student is involved with analysis and commentary. Offers examples drawn from personal work projects of |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | | | | changing behaviour to incorporate good practice. | changing behaviour to incorporate good practice. Reflects on examples of good practice from other businesses or organisations. |
| *Make effective use of organisations and networks to support professional development.* | Shows little or no knowledge of organisations and networks which could support professional development. | Identifies one or more professional organisation or networks and their potential for supporting professional development. | Identifies one or more professional organisation or networks and their potential for supporting professional development and reflects on their value | Offers clear examples of using professional organisations and networks, including on-line tools to support professional development. Reflects on their value and on personal networking skills. | Evidences strong examples of involvement with professional organisations, and networks, including on-line tools and assesses their strengths and weaknesses. Reflects on own personal networking skills and strategies for improvement. | Evidences strong examples of involvement with professional organising and networks, including examples of leading and initiating activities with these organisations and networks. Identification and reflection outcomes of activities. |
| | | | | | | |
| **Criteria** | **E 30-39%** | **Grade D: 40-49%** | **Grade C: 50-59%** | **Grade B: 6—69%** | **Grade A: 70-84%** | **Grade A+: 85-100%** |
| ***Able to use presentation skills to explain work*** | | | | | | |

| | | | | | | |
|---|---|---|---|---|---|---|
| ***placement roles and achievements.*** | | | | | | |
| *Summarise and explain context, roles and achievements in work.* | Fails to summarise and explain roles and achievements. | Describes placement but not its context or outcomes. | Describes placement, gives examples of projects and with some reflection on achievements. | Clear description and summary of placement and company / organisation context, with examples of roles, and reflection on achievements. | Clear and coherent description and summary of placement, including business context of placement, explanation of roles and identification of achievements over the year. Clear reflection on the learning outcomes for the year. | Clear and coherent description and summary of placement, including business context of placement, explanation of roles and identification of achievements over the year. Clear reflection on the learning outcomes for the year and action plan for next steps in career development. |
| *Able to structure presentation* | No apparent structure to presentation. | Presentation evidenced some structure, but elements missing and content unbalanced. | Structured presentation with description of roles and projects but no indication of achievements or impact of work. | Structured and balanced presentation with mixture of description, commentary and reflection. | Well defined structured, concise presentation with clear signposting of its elements. | Well defined structure, concise presentation with clear signposting of elements and clear indication of opportunities for audience interaction. |
| *Able to use presentation tools* | Little or no use of tools or materials | Used presentation tools (e.g. | Clear use of presentation tools, | Confident use of presentation tools | Confident use of presentation tools | Confident use of presentation tools |

| | | | | | | |
|---|---|---|---|---|---|---|
| *and material and appropriate body language.* | to support presentation and presenter failed to face audience. | PowerPoint) but skills unfamiliar with those tools. Limited interaction with audience. | some use of other materials (e.g. models, hand-outs, whiteboard). Some interaction with audience. | and visual aids. Familiar with materials. Faced and interacted with audience. | and materials, appropriate use of visual aids. Engaged with and responded to audience. | and materials, appropriate use of visual aids. Invited engagement with and response from audience. |
| *Able to summarise and deal with questions.* | Did summarise presentation or invite or respond to audience questions. | Concluded presentation and responded to but did not answer audience questions. | Summarised points in presentation. Encouraged audience to ask questions and responded to questions. | Clear summary of key points in presentation. Encouraged audience to ask questions and answered questions. | Clear conclusion to presentation and summary of main points. Invited audience comments, questions and interaction. | Clear conclusion to presentation and summary of main points. Invited audience comments, questions and interaction. Sought audience feedback. |
